- REPLACEABLE EAR PADS

PROFESSIONAL INFLUENCES.
The K 324 P has been inspired by technology used in AKG's award-winning professional in-ear monitoring systems, which are used by famous musicians around the world.

AKG's flagship K 324 P in-ear model offers high-quality, full-spectrum sound, reproducing the deepest bass with attitude and the highest highs with ease. The design of the K 324 P provides a high level of acoustic attenuation of ambient noise, which means you can enjoy your music in more detail. Its ergonomic design and personalized fit (included are sleeves of three different sizes) mean that you can listen to music for hours, without fatigue or discomfort. And the minimalist design, available in cool white or chrome, will appeal just as much to your eyes as to your ears.
